

Fastmount Ltd

Panel Mounting Systems

International award winning panel mounting systems

Winner 2006 IBEX
Innovation Award

Winner 2005 SEAS
ISTIA Innovation Award

The Fastmount™ multi-award winning panel mounting system has revolutionised the mounting of ceiling and other panels in superyachts and launches.

Specifically designed for the demanding requirements of the Marine industry, this innovative system provides a superior ceiling finish with perfect alignment every time. Panels can easily be removed and refitted in any sequence time after time.

Fastmount™ is used by more than 300 boatyards in over 35 countries worldwide.

Key Benefits

- Precise positioning and multiple removals
- Secure mounting for all conditions
- Reduces cost and time

"The last thing you want to see is a panel coming down on an owner. With Fastmount™ we get an accurate fit and greater security."

Stuart Freeman, Sunseeker.

Applications

- Production and custom yachts and launches
- New builds and refits
- Painted and covered panels
- Internal and external surfaces
- Mounting options for composites and thin-walled panels
- Endless applications – only limited by your imagination and commonsense

Fastmount™ inventors and founders Ron Hanley and Gregg Kelly at home in Muriwai NZ. Winner 2005 International Superyacht Technology & Innovation award.

Fastmount™ clips are made from engineering grade plastic precision moulded in New Zealand and supplied with installation tools.

Our online ordering system and worldwide network of distributors ensures efficient delivery.
