

PC-SM2

Panel Clip – Surface mount Male adhesive fix

Used with: PC-F1 or PC-SF1

Material & finish: White acetal copolymer

General description

The Fastmount™ multi-award winning system has revolutionized the mounting of panels in superyachts and launches. Specifically designed for the marine industry, this innovative system provides a superior finish with perfect alignment every time. Panels can easily be removed and refitted in any sequence time after time.

The Fastmount™ Surface mount Male, using super-groove technology, is an extension of the Fastmount system, designed for use with thin walled panels and where installers prefer an adhesive fix. It is ideal for new composite materials. Super-grooves mechanically engage into adhesive on the base for secure mounting.

Benefits

- Self aligning secure mounting (5kg per clip)
- Installation requires no special tools or skilled labour
- Uses a range of adhesives to suit the customer
- No machining of panels, fast installation
- Works with existing Fastmount clips
- Allows for flexing & expansion of panel & support frame materials

Application ideas

- Mounting thin walled panels less than 6mm thick
- Soft or honeycomb cored panels with thin facings
- Installers preferring self alignment and/or no special tools
- Mounting panels where no drilling is preferred
- Ideal for refit

Typical installation details
