

PC-01

Panel Clip set = PC-M1A + PC-F1 self tapping

Material & finish: White acetal copolymer

General description

The Fastmount™ multi-award winning system has revolutionized the mounting of panels in superyachts and launches. Specifically designed for the marine industry, this innovative system provides a superior finish with perfect alignment every time. Panels can easily be removed and refitted in any sequence time after time.

The Fastmount™ self tapping clip products PC-F1 & PC-M1A make up the PC-01 clip set. These core products work with our range of other clips designed for adhesive fix, heavy duty, high shear strength & variable gap requirements. These include PC-SF1, PC-RF1, PC-SM2, PC-M2H, VS-M1 & PS-150. Supplied with installation & removal tools.

Benefits

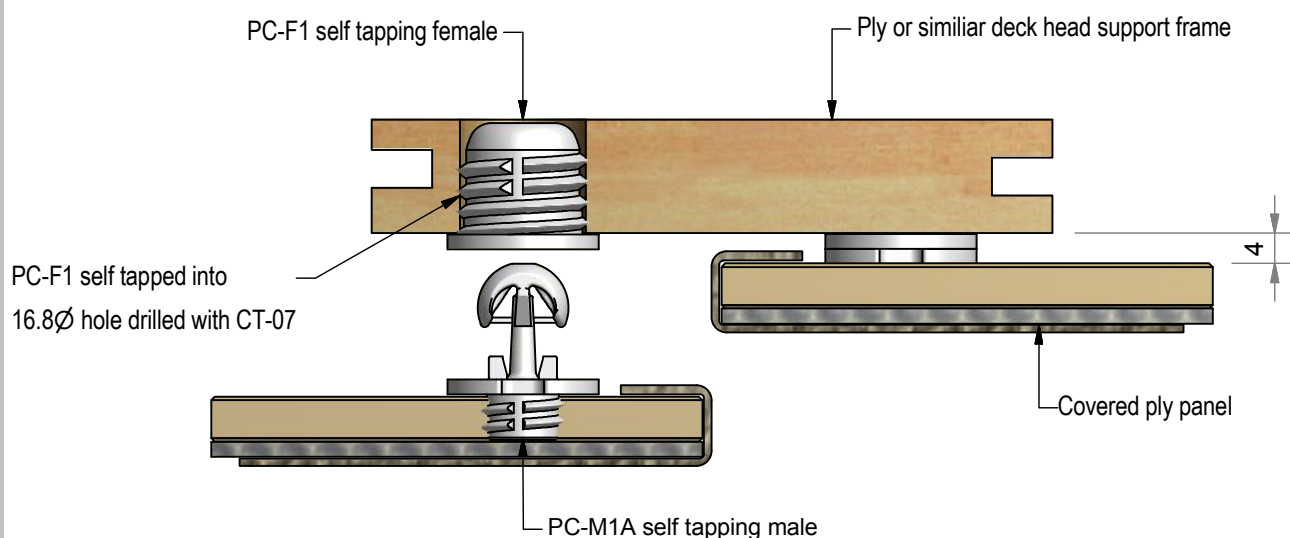

- Self aligning installation without adhesives
- Perfect panel alignment secure mounting every time
- Remove & refit panels in any sequence 200+ times
- Saves time & reduces cost
- 5kg pull out load per clip
- Allows for flexing & expansion of panel & support frame materials

Application ideas

- Suitable for covered or painted & prefinished panels
- Ceiling and wall panels
- Exterior panels
- Refits & upgrades of existing installations
- Install into a variety of substrates
- Mounting options for composites and thin-walled panels
